

FEATURES

- o Composite vane material for long life
- o Oil level sight glass
- o Vibraton isolators
- o Anti-suck back valve
- o Integral exhaust filters
- o TEFC high-efficiency tri-voltage motor (208-230-460V 50/60)
- o Wire mesh inlet screen

Airtech's L-Series rotary vane oil-flooded vacuum pump is a real workhorse. Reliability and durability are ensured by its simple design. Our L-Series Pump has integral exhaust filters, vibration isolators, and composite vane material which promotes longevity. The Airtech pump has an operating capacity range of 7-460 CFM while obtaining an end vacuum of 0.5 Torr.
